

Adding a Primary Clinician or Specialist

 <p>The screenshot shows the 'Your Clinicians' section of a mobile app. At the top, it says 'Your Clinicians' with a plus sign. Below that is a card for 'Dr. Ashok Kapur', an Internal Medicine, Family Medicine Primary Clinician. There are three buttons: 'Remove', 'Chat', and 'Remove as Primary'. At the bottom, there is a navigation bar with icons for Home, Appointment, Calendar, Your Clinicians, and More.</p>	<p>Go to Your Clinicians and click on “+”</p>
 <p>The screenshot shows the 'Clinician' search screen. At the top, there is a 'Back' button and a notification bell with a red '1'. Below that is a search bar with 'sheeta' entered. The main area of the screen displays the message 'No clinician available'. At the bottom, there is a keyboard with a 'search' button.</p>	<p>Type in the clinician you are looking for, and make sure the clinician accepts patients in your state location.</p>

Click send request and choose between primary and specialist

1. You may only have one primary clinician at a time
2. Adding a primary clinician adds you to the clinician's list of primary patients
3. You can send chats to your primary as well as specialist clinician
4. Once the provider accepts your request, you should be able to send and receive chat messages with your provider.

Your clinician/specialist will receive a notification and accept your request.
